

HYDROFLEX 5/20B – 10/20B

Hydroflex 5/20 and Hydroflex 10/20 are an acrylic based sealing material that swell in contact with water.

TECHNICAL DATA

Application Areas

- Joints of foundation and shear wall,
- Swimming pools, water tanks
- Purification facilities, etc.

Analysis	Result
Water pressure resistance	5 bar (50 m)
Expansion rate	%300 (in water during 7 days)
Application Temperature	-30 °C to +50 °C

Packing/Stocking

Product Code	Dimensions	Packing
5/20	5 mm x 20 mm	20 m/box
10/20	10 mm x 20 mm	10 m/box
